Activity 1.1.4 What is Technology?

Introduction. Technology includes the new products and systems that are developed to solve problems. For example, engines increase the speed at which people can travel. The use of technology sometimes helps to improve our lives by allowing us to

difference does exist between the two.

Remember that with gears the teeth of one gear are meshed with the teeth of another gear. When chains are used, they are joined with sprockets.

## Get Free Activity 1.1.4 What Is Technology Pltw Gtt

Activity level is a number used to express how physically active someone's lifestyle is. It is derived by dividing total energy expenditure by basal metabolic rate and is typically between 1.4 and 2.1. Most people will never know their physical activity level with any accuracy because calculating it requires sophisticated laboratory techniques.
