Expert authorship, an engaging writing style, and an interesting collection of cases combine to communicate the importance of managing operations and processes within a successful organisation. Operations Management provides a strategic perspective, whilst also examining the practical issues which organisations face on a day to day basis. It uses over 120 examples from all over the world, reflecting the balance of economic activity between service (c.75%) and manufacturing (c.25%) operations.

Operations Management | Alistair Brandon-Jones, Nigel ...

Stevenson's book on Operations Management gives the book on operations management by Knod and Schonberger a good run for the money, but the Knod and Schonberger book wins by a nose, in the opinion of this reviewer. This book has very good sections on location analysis and run-sign tests that are missing from the Knod and Schonberger book. Stevenson's treatment of the exponential smoothing model ...
